OBJECTIVE:

To gain experience while learning and to showcase my skills while contributing on development of an organization and to be able to fully use and utilize my skills to the company that will benefit from it.

WORK EXPERIENCE:

GreenLight Power Inc - **Encoder**

February 2026 – Present

accurately input, update, and organize information into a company's digital database or system. responsible for reviewing source documents, checking for errors, and ensuring that all records are perfectly maintained and easy to retrieve

- Encoded and processed corporate information into the digital database with a high degree of speed and accuracy.
- Reconciled conflicting system data against physical reference files to identify missing or mismatched information.
- Investigated data anomalies and resolved unmatched records to maintain total database accuracy and integrity.
- Categorized and organized high volumes of physical paperwork to streamline the data entry pipeline.
- Verified raw source documents against database entries to eliminate formatting errors before final submission.
